## ANNOUNCEMENT FOR 1872.

---

THE difficulty of compiling a City Directory can hardly be understood, and is not easily explained; yet we believe that the Directory for 1872 is more nearly correct than any of its predecessors. We have endeavored, and we think successfully, to obviate several difficulties attending former canvasses. The book itself is the best evidence of the improvements effected, though we do not claim absolute exactness.

This year's Directory contains 36,828 names, against 33,500 in 1871, and on the basis of last year,  $4\frac{1}{2}$  persons to each name, gives a population of fully 151,915, bearing out our anticipations concerning the growth of the city.

We have taken particular pains to make the statistics of new buildings erected in 1871-2 full and complete. Included are those erected from January, 1871, to May 1, 1872. The list is not probably quite exact, but is a very close exhibit of the building during the period named. It will be seen that 545 wooden and 117 brick and stone structures have been erected, at an approximate cost of \$2,821,890.

The statistics regarding the manufactures of Buffalo will be found to be valuable and instructive. Such an exhibit has not been made since 1860. A comparison shows the steady growth of our industries, and gives the most encouraging prospects for the future.

The Directory contains a great amount of information concerning the public, religious, charitable, and private institutions of the city, which make a valuable present record, as well as a historical authority.

The first Directory of Buffalo was published in 1828. None were printed in the years 1829, 1830, 1831, 1833, 1834, 1843, 1845 and 1846. We preserve the usual style of the book, which contains 640 pages, a decided increase over last year. The make up of our Directory gives advantages to advertisers in matters of reference in the indexes, far surpassing any other City Directory published.

Every person should have at his place of business or at his house a Directory, not only as a daily convenience, but also as a valuable record of local history. An examination of the book will disclose its permanent value.

## MANUFACTURES OF BUFFALO.

THE canvassers for the Directory were instructed to make a careful enumeration of the various manufactories, and the number of people employed in them. These statistics have been compiled into the following summary and table. It will be observed that the list includes only actual manufactories. The thousand and one shops for the making of this or that article we omit, as not coming within the scope of our intention. But we give a list of 823 manufactories of such magnitude as to be worthy of mention, giving direct employment to 28,171 persons. It is over ten years since such a comparison of Buffalo manufactories has been made, and since then they have more than doubled in number, and the number of workmen is still more largely increased. In the former statement a large number of mechanical interests were included which did not properly come under the head of manufactories, which are omitted in our present report. The development of manufactures is really encouraging. The new enterprises on foot will no doubt largely add to the importance of our industries. The opening of the new railroad to the oil regions will give the signal for the erection of extensive oil refineries. The new car works promise to inaugurate an important branch of industry, and the erection of a new steam forge is an indication of the growth of this interest. Other new enterprises are briefly alluded to further on.

### METALS.

The iron manufactures of Buffalo have grown into great proportions since any review of this subject has been published. The manufacture of pig iron, which was at one time embarrassed, is now upon a better footing than ever, and the two furnaces employ 960 men. The list of stove manufacturers includes three establishments employing 620 men. One establishment, manufacturing rolled iron and nails, employs 750 men, and two general casting concerns employ 117 persons. The casting of iron pipe for street gas and water mains, gives

work to 85 men in one concern, and another employs 24 men in the exclusive making of stove hollowware. Five establishments, employing 190 men, are devoted to boiler making, though most engine builders are also boiler makers. We give 16 builders of engines and machinery, employing 1,255 hands. These include all kinds and descriptions of steam engines and general machinery. One establishment for millstones and flour mill machinery employs 125 men, and one making bakers' machinery 23 men. We have elsewhere drawn attention to the manufacture of car wheels and axles. Two safe builders give employment to 19 men, and two iron railing makers employ 22 men. The manufacture of edge tools shows progress; and three factories report 162 employees, and two awl makers report 23 hands. In bolts and nuts four concerns employ 117 persons, and four file makers have 39 hands. Two cutlery employ 10 men, and one chain manufacturer has 35 hands. In the manufacture of tin, copper and sheet iron work, 18 factories employ 231 persons, and the type foundry employs 25 persons. Six brass foundries employ 64 men, and one hot air furnace manufacturer 10 persons. In the manufacture of plumbers' goods and gas fitting we give fifteen houses, employing 314 men, and one making white lead and lead pipe employs 35 persons. Three concerns are making lanterns of all kinds, including one making locomotive head-lights, which employ 67 men. One concern for the manufacture of saddle and trunk hardware and malleable iron articles, employs 300 men; and three others in builders and light hardware have 110 employees.

A large number of men are employed in the building of iron vessels, but they are laborers, boiler makers and machinists, who are enumerated among the employees of different establishments engaged in this business; for some statistics see p. 69.

The Buffalo Scale Works, the only manufactory of the kind, employs 125 men. There are some small shops where spring scales are made for retail trade.

Although we give but one galvanizing concern, employing six persons, there are other establishments that use great amounts of galvanized metals, which they prepare themselves in shops connected with their other works, and which we have not separated from the gross returns of employees made by them.

#### WOOD AND WOOD WORK.

In the manufacture of lumber, and wood into articles for building, we have grouped the planing mills, which make doors, sash, blinds, mouldings, etc., under one head, with 16 concerns, employing 864 men. Two new and extensive buildings for this class of business have been erected during the year past: that of Mr. Churchyard, Clinton street corner Adams, and Clarke, Holland & Co., at the foot of Wilkeson street. The former, a three-story brick structure, cost, with machinery, \$60,000; and the latter, a four-story immense building, about \$150,000. The manufacture of shooks is quite an extensive business, employing 120 men in four establishments. In this, as some other branches, other than the concerns exclusively devoted to a specialty, make these articles, and do not figure in the list as shook manufacturers.

While noting the works in woods, we call attention to the fact that three shingle mills employ 210 men, and three saw mills have 60 hands.

The manufacture of picture frames is extending, there being now six concerns, employing 89 persons, and probabilities of another large one beginning work soon.

The manufacture of refrigerators is of more importance than would be supposed; three manufacturers employ 186 persons in this business, two also being makers of bird cages. These refrigerators and water coolers, with the Buffalo imprint, may be found very far from home, and are among the very best goods of their class known.

We are sorry to see a decline in the number of manufactories of musical instruments, there now being but two organ and melodeon factories, and two piano factories. Of the former, Messrs. Prince & Co. sustain their reputation, and the demand for their instruments keeps 200 men in employment. In the building of church organs Mr. G. House is alone, employing six men. The two piano manufactories employ 52 men, and two orchestration builders employ four hands.

In wood and willow ware there are two factories, employing 63 men. There are many basket makers on a small scale, whose wares are disposed of to retail dealers. One washing machine manufactory employs 40 men.

There are seven manufactories of trunks, employing 30 men, and the trade is growing as the wholesale jobbing trade in other branches increases.

We have returns, aside from minor cabinet and upholstering shops, of 34 furniture manufactories, employing 586 persons. Of Buffalo furniture it can be truly said that it will rival in elegance and quality any made in the country. Recently Mr. A. Best has engaged in the extensive manufacture of furniture frames in the large new five-story brick building at the corner of Perry and Indiana streets, and employs 125 men, a number that will probably be doubled soon.

Two establishments for the manufacture of school furniture, an article Buffalo is celebrated for everywhere, employ 30 men.

#### CAR BUILDING.

The building of railway cars is destined to be a very important department of Buffalo manufactures. The Buffalo Car Company have forty-five acres of land at East Buffalo, and are pushing their works towards completion, expecting to have them in full operation by August, and to employ fully 200 men. The company has constructed two immense brick shops, that for wood work being 360 by 75 feet, that for iron 300 by 60 feet, and other buildings will be ready in time. Thus far about \$60,000 have been expended for buildings alone. A side track connects the works with the Buffalo, New York and Philadelphia Railroad.

The railways centering here not only do an immense amount of car repairing, but also car building, and in the five railway shops there are fully 700 men employed.

The making of car wheels is the exclusive business of one concern, employing 50 men, and the steam forges are mainly employed in making car and locomotive axles, requiring 230 regular hands.

#### CARRIAGES AND WAGONS.

The building of carriages and wagons is largely increasing each year. There are facilities for the procurement of suitable woods, which with the greatly enlarged facilities for the peculiar iron work required, render Buffalo a very advantageous point for this business. We have forty concerns, employing 332 men, aside from the very large number of minor shops for building and repairs. There are several establishments whose work will compare well with the finest eastern or foreign work.

An establishment for the making of children's carriages, employing thirty hands, is a notable feature in this trade, as well as

are devoted to the manufacture of carriage springs, and employing eight persons.

# BOAT AND SHIP BUILDING.

In boat and ship building we enumerate seven establishments, employing in the aggregate 327 men. This account does not include the workmen on iron ships, but does those engaged in the dry dock yards and repair shops. Iron ships are built by iron workmen, who are accounted for elsewhere.

# LEATHER.

Our table gives 11 tanneries. Although some of these are outside of the city, they are all owned and operated by citizens, and the leather is all disposed of here. These tanneries employ 483 men, besides a very large number who are indirectly connected with the trade.

Two manufactories of leather belting and hose employ 50 men, and five manufactories of linings, morocco and sheep skins employ 142 hands. The leather trade is rapidly becoming of great importance.

# BOOTS AND SHOES.

Boot and shoe manufacturing steadily gains ground, and we have a list of seven concerns which employ 337 persons, including one establishment, that of John Dorschell & Co., where ladies' shoes only are made, and which employs 58 hands.

# HARNESS, SADDLES AND COLLARS.

The manufacture of articles under this head is increasing. We record 11 establishments, which employ 70 hands. There are a great number of small shops employing from two to three hands.

# FLOUR MILLS.

Nine mills are in operation, employing 176 men, which in 1871 manufactured 232,653 barrels of flour. It is expected the product will be much larger the present year.

A farina mill has recently been established near the foot of Wilkeson street, employing eight men.

While speaking of grain products it is proper to mention our one starch factory, employing 16 men, which will be largely increased in capacity.

# BAKERIES.

Our list of bakeries does not include all in the city, but those of manufacturing capacity as distinguished from scores of bakers who bake in a small way for sale, but who do not supply dealers. Fourteen manufacturing bakeries employ 97 persons.

# CLOTH.

The manufacture of clothing has grown extensively during the past few years, and now employs 1069 persons by seven factors. Of course this does not include the large number of merchant tailors and others who make clothing on a limited scale. The quality of clothing manufactured, we are assured, is quite up to the standard of the best eastern houses in every respect. It is difficult to get full data about this branch of trade, as it is farmed out to small shop-keepers, who in turn employ a vast number of hands in the aggregate.

In shirt making there are eight manufactories, employing 159 persons.

In ladies' dresses, mantles and wear, we have eight establishments, employing 456 persons. This branch supplies our largest retail costumers, and includes the making of linens as well as the finer articles of dress, and suits for ladies' wear. Our list is quite separate from the dress maker's shops.

There is but one woollen mill recorded, which employs 50 persons. This concern commenced operations during last year, and has been very successful, we are informed. There are a number of small weavers of stockings, etc., connected with retail shops, which are not enumerated.

# TOBACCO AND CIGARS.

The tobacco and cigar trade has become a considerable feature. There are two manufactories of tobacco, which employ 57 persons, and 103 cigar manufactories which give employment to about 1600 persons. The number of cigar makers proper is probably about 400, the others are their assistants in the preparation of the leaf for use, and in packing, etc. To supply this trade there are two concerns engaged in the manufacture of cigar boxes, employing eight men. But there are several other concerns who make cigar boxes as incidental parts of their business. There were about twelve millions cigars made here last year.

# MARBLE AND ART WORKS.

In marble work we observe not only a steady growth in the different establishments, but also that the quality of work is necessarily much higher than formerly. Finer and more cultivated tastes have called for a high artistic style of work in marble, and the best skilled workmen are in request to supply this demand. The effect of all this is to be seen in the beautiful marble embellishments of our cemeteries, where a laudable rivalry is erecting so many evidences of the skill and taste of our marble workers. The six establishments in the city employ 63 men. Besides these are several concerns making cut building

stone, and for other purposes. One manufactory of plaster statuary employs four men.

#### DRUGS AND PATENT MEDICINES.

Under the head of manufacturing druggists, six in number, we include those establishments which make medical preparations, extracts, etc., and which employ 108 persons. This seems to be a growing and prosperous trade, to which we note the accession of the Buffalo Pharmaceutical Co., in the Turner building on Niagara street.

Messrs. Ransom, Hamlin & Co. have purchased, and now occupy, the Townsend Manufacturing Co.'s buildings fronting on Main and Quay streets.

#### GRAPE SUGAR.

Grape sugar is a new industrial enterprise, which Messrs. Fox & Williams have undertaken, and already employ 18 men. This article is used by brewers in the manufacture of beer.

#### BREWERIES, DISTILLERIES AND MALT HOUSES.

There are thirty-eight breweries of beer, ale and porter, employing 283 persons. There has been added a new brewery to the list, situated at the corner of Jefferson and Best streets. During the year ending Dec. 31, 1871, there were manufactured 154,177 barrels of beer, and 23,123 barrels of ale and porter, making a total of 177,300 barrels (7,051,900 gals.), as against 175,893 barrels (7,036,080 gals.) in 1870. In the country towns outside the city there were made in 1871, 15,868 barrels of beer, ale and porter. A large proportion of this product finds a market in Buffalo. The statistics for several years show a regular total increase of manufacture:—1868, 159,247 bbls.; 1869, 153,323 bbls.; 1870, 175,893 bbls.; 1871, 192,167 bbls. The capital invested in this branch of business can hardly fall short of \$2,000,000. A very large proportion of the expenses of the brewers, as well as the original outfit, goes to the benefit of other local manufactures, such as machinists, barrel and keg makers, etc. During 1871 the brewers consumed 330,000 bushels of barley, 162,000 bushels of malt, 400,000 lbs. of hops, and large quantities of grain—estimated at \$100 worth for each of 190 horses used in the business. We give 22 manufacturers of malt, less than the number of malt houses, as some proprietors have several houses. These give employment to 160 persons. Several of the breweries are also malt manufacturers. The 25 malt houses in operation in 1871 probably made one and a quarter million of bushels, and it is estimated the breweries

made a quarter of a million bushels more, according to the figures of the secretary of the Board of Trade.

Five distilleries, employing 33 men, during 1871 made 1,583,137 gallons of spirits, consuming 434,267 bushels of grain.

During the year ending April 30, 1872, there were 21 rectifying concerns at work, which rectified 19,103 bbls., or 764,080 gallons. Sixty-nine men are directly employed in this business.

#### OIL.

There are now four oil manufactories, employing 50 men. But we understand parties have negotiated for plats of land upon which to erect refineries when the projected railway connections with the oil regions shall have been perfected.

#### PROVISIONS.

Under this head we place the packing of pork and beef and the curing of meats. There are, aside from the minor butchers' shops, where, in the aggregate, a great amount of curing and packing is done, eight establishments, which employ 237 hands. During 1871 about 250,000 hogs were slaughtered here. Several of the city establishments are winter, others summer, and a few packers the entire year.

#### BRICK AND TILE.

The making of brick and tile employs 515 men, in eleven concerns, including the fire brick factory of Messrs. Hall & Co., with 45 men. The local clays make superior brick and tile, of which latter great quantities are coming into use. The clay for the fire brick mentioned is brought from New Jersey, and manufactured in premises adjoining the Fletcher Iron Furnace.

## THE NEW BUILDINGS OF BUFFALO.

WE have endeavored to make a faithful record of the construction of buildings from January 1st, 1871 to May 1st, 1873. Since the latter date hundreds of buildings have sprung up with magical swiftness, and more are going up. We believe that the present year will show an increase of building over the record we present. We have never seen such general activity, and the buildings are quite generally of the better class; several of them are of magnitide. Our list contains the record of one hundred and seventeen brick and stone buildings, and five hundred and forty-five frame buildings—a total of six hundred and sixty-two, erected at an estimated cost of \$2,831,890, an average of over \$4,262 for each house. We think the estimate far under the real valuation of the new structures.

During the past year the splendid mansion of W. G. Fargo, Esq., was completed for occupation. It is one of the finest and most costly dwellings in the country, and is an ornament to the city.

The Bishop's Palace, as it is already called, adjoining St. Joseph's Cathedral, is a most imposing structure of stone, which, when ready for occupancy, will have cost much more than the figures given us.

The Chapel of the Delaware Avenue M. E. Church, built of brown freestone and brick, fronting on West Tupper street, discloses that the church proper is to be a costly and magnificent one.

Asbury Church, at the corner of Pearl and Chippewa streets, has taken the place of a barn-like old church, and its architecture is creditable alike to the designer and the society.

But one other church, we believe, was built during 1871-2, a small, brick structure on Mortimer, near Batavia street.

The completion of the Western Savings Bank building, on the north-west corner of Main and Court streets, places another imposing brown stone structure upon our principal avenue. By another year we hope to chronicle more such architectural ornaments upon Main street, which to stran-

gers seems generally shabby, as compared with some of our avenues devoted to costly residences and beautiful gardens.

It will be easily observed by reference to the streets in our list, that a large number of costly private residences have been erected upon the favorite dwelling avenues. These indicate the mercantile success of the community, just as the larger number of humbler dwellings show the prosperity of the working men and mechanics. There is not much speculative building. Nine tenths of it is by those who own and occupy their homes. In the suburbs there are many stores and shops, frame and brick, to meet the wants of the expanding city. But the vast majority of the buildings are dwelling houses. We have alluded in the article on the manufactories of Buffalo to a number of new and vast enterprises, involving the investment of great capital and the employment of a large number of skilled laborers.

The new building for the Buffalo Street Car Company, at Cold Spring, is a vast caravansary 164 by 165 feet, all under one roof, and is architecturally creditable to the builders. It will give ample space for the offices, stables and car depot.

The Buffalo Car Works at East Buffalo will be in working order by August, and the new buildings are capable of turning out a vast amount of work.

The new steam forge on Red Jacket near Mill street, the costly planing mill at the corner of Court and Wilkeson streets, that at the corner of Clinton and Adams, (both very perfect of their kind,) the construction of the Mutual Gas Works, and the Oxygen and Hydrogen Gas Works, all indicate the growth and prosperity of our city.

Of business blocks we will make mention of the double six story block erected by the Courier Company on Washington street; a building with a handsome façade, and by far the handsomest show windows in the city; beside which it is one of the most perfectly fire proof buildings ever constructed. Nearly opposite, and adjoining Bonney's Hotel, the proprietors of the

Commercial Advertiser have put up a double four-story brick block, which may be a printing office some day, and make the block from Seneca to Exchange streets a veritable Printing House Square. Within a few years Washington street has come to rival Main street in the style and cost of its business structures.

These are the principal features of the building season of 1871-2.

The present year will see our noble City Buildings well on towards completion, and very many expensive structures for which ground has been broken will augment the number as well as the character of the more stylish and costly edifices. The tendency is to build well, though so many wooden buildings in the suburbs render danger of a great conflagration more imminent than is desirable.

## STREET AND AVENUE DIRECTORY.

### EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The number on our corner has been given, so that a person wishing to find, say, 496 MAIN STREET, on consulting the Street Directory, finds that the right hand corner of Main and Mohawk is No. 497, consequently the place he seeks is only a few doors above.

## BUFFALO FEMALE ACADEMY.

This institution is situated in the most eligible and delightful part of the city, and commands a beautiful view of the city, the river, and the lake. The grounds, consisting of a whole block, fronting on Delaware avenue, and extending to a charming private park in the rear, are tastefully laid out and ornamented with trees and shrubbery.

The buildings, "The Cottage" and "Goodell Hall," combine all that is desirable in arrangement and convenience. The former is built of stone, and is exclusively occupied by the family of the principal, the young ladies entrusted to his care as boarders, and the teachers of the institution boarding with the principal. The latter, "Goodell Hall," has been expressly erected for academic instruction, and for spaciousness and convenience, may well challenge comparison with any similar establishment in the country. It has abundant accommodations for four hundred pupils. Rev. A. T. Chester, D. D., Principal.

Board of Trustees—Orsamus H. Marshall, President; Albert T. Chester, Secretary and Treasurer; Nathan K. Hall, Saml. F. Pratt, Thomas Farnham, Joseph Dart, Noah H. Gardner, John B. Lee, Oliver G. Steele, William H. Greene, Nelson Holland, Pascal P. Pratt, Silas H. Fish, James D. Sawyer, Sherman S. Rogers.

Postal Money Orders can also be obtained on Switzerland, and by way of these Swiss orders money can be sent cheaply and safely to all those countries

of Europe that have a Postal Money Order Treaty with Switzerland. For rates apply at this office.

Lists of Money Order offices may be seen and farther information obtained at the Post Office.

POSTAL RULES.

Many errors occur by persons not observing the following rules in depositing letters, papers or other mail matter in the office for mailing:

All Drop Letters must be prepaid by postage stamps.

Prepayment by stamps required on all transient printed matter, foreign and domestic.

By inserting the County in which the office is located, upon all the letters, many errors in superscription might be detected, and mistakes in mailing be avoided.

The following classes of letters are not advertised:

Drop letters; letters bearing request to be returned to writers if unclaimed; box letters; letters directed and sent to hotels, and thence returned to the Post Office as unclaimed, being for strangers; letters returned from the Dead Letter Office to writers; circulars, free packets, containing printed documents, speeches and other printed matter.

All others remaining in the office are advertised on Saturday of each week. If not claimed in one month thereafter, they are then forwarded to Washington.

*Buffalo Society of Natural Sciences.*—Organized Dec. 5, 1861; incorporated Jan. 28, 1863. The object of this Society is the promotion and study of the Natural Sciences, through the formation of a Museum and Library, the procurement of Lectures, and the use of such other means as shall be found effective. Its primary duties and objects are the collection and preservation of specimens of every vegetable and of every animated being, other than man and the domestic animals, (indigenous to Buffalo and its vicinity,) and of every rock, fossil, and mineral, of the surrounding country; to classify, arrange and make catalogues of them; to send catalogues of them to its correspondents, and to all lovers of natural science who may desire them; to observe, record and diffuse a knowledge of all facts illustrative of the nature and habits of such animals and plants; and, so far as it can, to supply the desiderata of its friends and correspondents. By a reciprocation of the services it desires to render others, as well as by such purchases as it may be able to make, and the gifts of our liberal citizens, its collection will soon represent far more than the local natural history; and it hopes and expects that its rooms will be attractive and useful to naturalists, as well as gratifying to the instructed admirers of God's wonderful works. Its rooms are located in the Young Men's Association Building.

*The Buffalo Historical Society.*—The above Society was organized April 15, 1863, and its first election of officers was held May 20, 1863. Its general design is to discover, procure, and preserve whatever may relate to the history of Western New York, and the city of Buffalo in particular. It will likewise aim to gather statistics of the commerce, manufactures and business of the Lake region, and those portions of the West that are intimately connected with the interests of Buffalo. For that purpose it solicits from all persons willing to contribute to the object, donations of books, pamphlets, maps, charts, manuscripts, correspondence, paintings, statuary, files of newspapers, etc., which may have historic importance, or illustrate, in any way, the facts and incidents attendant upon the early settlement and subsequent progress of Western New York and the adjacent regions. Those who are in possession of any of the above described objects of collection desired by the Society, and may not feel willing to donate or permanently part with them, are respectfully invited to deposit the same among the archives of this Society, to be reclaimed at their pleasure. No property thus deposited will be permitted to be taken from the rooms of the Society, unless with the written consent of the owner or depositor. A fireproof depository has been secured for the use of the Society. An Annual Oration will be delivered before the Society, on the second Tuesday of January in each year, and Addresses from time to time during the year, of which public notice will be given. The monthly meetings of the Society will be held on the first Tuesday of every month.

CANCELLATION.—In all cases where adhesive stamps are used for denoting the tax upon an instrument, the person or party using or affixing them must so affix them that the entire surface of each and every stamp shall be exposed to view, and must cancel them by writing or imprinting upon each stamp, *with ink*, the initials of his name, and the date (year, month and day) on which the same is attached or used, or by cutting and canceling the same by a machine which shall affix the date, and so cut and deface the stamp as to render it manifestly unfit for re-use, and at the same time shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

When stamps are printed upon checks, etc., so that in filling up the instrument the face of the stamp is, and must necessarily be, written across, no other cancellation will be required.

PENALTIES.—A penalty of \$50 is imposed upon every person who makes, signs or issues, or who causes to be made, signed or issued, any paper of any kind or description whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note for the payment of money, without the same being duly stamped or having thereupon an adhesive stamp for denoting the tax chargeable thereon, canceled in the manner required by law, with intent to evade the provisions of the revenue act. (Sec. 158.)

A penalty of \$200 is imposed upon every person who pays, negotiates, or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto. (Sec. 159.)

A penalty of \$50 is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually canceling and obliterating the same in the manner required by law. (Sec. 156.)

Attention is particularly called to the following extract from section 153, of the act of June 30, 1864, as amended by the act of July 13, 1866:

"If any person shall willfully remove or cause to be removed, alter or cause to be

altered, the canceling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been once used, or shall knowingly or willfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any person for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument, or writing, then, and in every such case, every person so offending, and every person knowingly and willfully aiding, abetting, or assisting in committing any such offense as aforesaid, shall, on conviction thereof, \* \* \* be punished by a fine not exceeding \$1,000, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in Schedule B, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instruments.

SCHEDULE C.

Exceeding twenty-five and not exceeding fifty cents. ....	2
Exceeding fifty and not exceeding seventy-five cents. ....	3
Exceeding seventy-five cents and not exceeding one dollar. ....	4
Exceeding one dollar, for every additional fifty cents, or fractional part thereof in excess of one dollar. ....	2

Official preparations, and medicines mixed or compounded specially for any person according to the written recipe or prescription of any physician or surgeon. .... exp.

PERFUMERY AND COSMETICS. For and upon every packet, box, bottle, pot, phial, or other enclosure containing any essence, extract, toilet-water, cosmetic, hair-oil, pomade, hair-dressing, hair-restorative, hair-dye, tooth-wash, dentifrice, tooth-paste, aromatic cachous, or any similar articles, by whatever name the same heretofore have been, now are, or may hereafter be called, known or distinguished, used or applied, or to be used or applied, as perfumes or applications to the hair, mouth or skin, sold, offered for sale, or removed for consumption and sale, the same rates per package, etc., as for medicines and preparations.

FRICTION MATCHES. For and upon every parcel or package of 100 or less. .... 1  
More than 100 and more than 200. .... 2  
For every additional 100 or fractional part thereof. .... 1

WAX TAPERS, double the rates for friction matches.

CIGAR LIGHTS, made in part of wood, wax, glass, paper, or other materials, in parcels, or packages, containing twenty-five lights, or less, in each parcel or package. .... 1  
When in parcels or packages containing more than twenty-five and not more than fifty lights. .... 2  
For every additional twenty-five lights, or fractional part of that number, one cent additional.

PLAYING CARDS. For and upon every pack not exceeding fifty-two cards in number, irrespective of price or value. .... 5

GENERAL REMARKS ON SCHEDULE C.—Perfumery and cosmetics are liable to stamp duty whether sold with the bottle or other enclosure containing them, or in bottles, etc., furnished by the purchaser. Prepared mustard, sauces, sirups, jams, and jellies must be stamped according to the weight of the bottle or other enclosure with its contents, whether the enclosure is sold with its contents or is furnished by the purchaser.

No stamp tax is imposed upon any uncompounded medicinal drug or chemical, nor upon any medicine compounded according to the United States or other national phar-

macopœia, or of which the full and proper formula is published in any of the dispensaries now or hitherto in common use among physicians or apothecaries, or in any pharmaceutical journal now issued by any incorporated college or pharmacy, unless sold or offered for sale or advertised under some other name, form, or guise than that under which they are severally denominated and laid down in such pharmacopœias, dispensaries, or journals.

No stamp tax is imposed upon medicines sold to or for the use of any person, which may be mixed and compounded for said person according to the written recipe or prescription of a physician or surgeon. But all medicinal articles, whether simple or compounded by any rule, authority, or formula, published or unpublished, which are put up in a style or manner similar to that of patent or proprietary medicines in general, or advertised in newspapers or by public handbills for popular sale and use, as having any special proprietary claim to merit, or to any peculiar advantage in mode of preparation, quality, use, or effect, whether such claim be real or pretended, are liable to the tax.

Stamps appropriated to denote the duty charged upon articles named in Schedule C, and in the amendments thereto, cannot be used for any other purpose; nor can stamps appropriated to denote the duty upon instruments be used in payment of the duties upon articles enumerated in this schedule.

When proprietary stamps from a private die are used, if they are so affixed to the boxes, bottles or packages that, in opening the same, or in using the contents thereof, they shall and must be unavoidably and effectually destroyed, no cancellation is necessary; but if they cannot be so affixed, they should be canceled in the ordinary manner by writing or imprinting thereon the initials and date. When general proprietary stamps are used they must be canceled by writing or imprinting thereon the date and the initials of the party using or affixing them.

When proprietary medicines and preparations, perfumery, and cosmetics are stamped according to their retail price or value in the immediate vicinity of the place of manufacture, no additional stamps are necessary upon them, whatever may be the price at which they are offered.

Any person who offers or exposes for sale any of the articles named in Schedule C, or in any of the amendments thereto, whether they are imported or of foreign or domestic manufacture, is to be deemed the manufacturer thereof and subject to all the duties, liabilities and penalties imposed by law in regard to the sale of domestic articles

without the use of the proper stamp or stamps for denoting the tax paid thereon. The stamp tax upon such articles imported or of foreign manufacture is in addition to the import duties; but when such imported articles, except playing cards, lucifer or friction matches, cigar lights, and wax tapers, are sold in the original or unbroken packages in which the bottles or enclosures were packed by the manufacturers, no penalty is incurred for want of proper stamp. When the packages are opened, stamps should be affixed.

India.....	Buffalo and Chicago.....	1871
China.....	Buffalo and Duluth.....	1871
Japan.....	Buffalo and Duluth.....	1871

"There are now on the stocks, at the King Iron Works, and nearly completed, four iron propellers, of about 1,500 tons each, for the trade between Buffalo and Chicago, and two of about 1,000 tons each, at Detroit, building by Ward & Co., of that place. I have likewise on the stocks, and nearly ready for launching, one iron composite propeller,\* for towing purposes, and one iron yacht.

"You will observe the rapid progress iron ship-building has made since 1870, in this city; a corresponding increase in the future will make iron ship-building one of the largest industries in the Western country. There are employed in this city alone, at the present time, about 1,000 men in iron ship-building and its accompaniments. I may add, in passing, that the vessels engaged in the Duluth trade can only draw about twelve feet of water, and that, with this light draft, they are capable of carrying 1,050 tons—a carrying capacity largely in excess of any wooden vessel of the same tonnage and drawing the same amount of water. Messrs. J. C. & E. T. Evans, of this city, were the first parties to recognize the value of iron for ship-building on the lakes and to invest their capital in iron ships. The fresh water of the lakes is much better for iron vessels than the salt water of the ocean, as it does not oxydize or foul the bottom.

"The tonnage of iron propellers engaged in the carrying trade on the lakes will reach, this season, over 15,000 tons. The carrying capacity of wooden propellers may be roughly estimated at about 80,000 tons, and the life-time of these vessels may now be averaged at ten years. During that time most of them will have to be rebuilt, and at a cost of nearly one-half their first price."

\* Since launched.

C. KURTZMAN,  
MODERN IMPROVED OVERSTRUNG  
PIANO FORTE MANUFACTURER

BATAVIA STREET, CORNER OF ELM.

All our instruments are built of the best and most thoroughly seasoned materials. Their tone is deep, round, full and mellow, the touch elastic. We were

**AWARDED THE FIRST PREMIUM**

at the New York State Fair, in 1863; also the First Premium at the International Industrial Exhibition, Buffalo, in October, 1869 and 1871; and we claim the right of saying that our make of Pianos is superior to any manufactured in this country.

EXTRACT FROM THE "ROCHESTER UNION."

MR. G. W. ELLIS,—Dear Sir: I take much pleasure in saying that the Piano you furnished for Grau's Opera Troupe in this city, manufactured by Messrs. Kurtzman & Hinze, is a very fine instrument—indeed as good as I have ever used.

Yours Truly,

**E. MUSIO,**

Musical Director of the Italian Opera.

Every kind of work in our line, as Repairing, Tuning, &c., of Piano Fortes, is done cheap and in the most durable manner.

## DE VINE BROTHERS,

Sole Manufacturers of the Newly Improved

## Square Grand Piano Fortes

WITH IVORY AGRAFFE.

PATENTED OCTOBER 13, 1868.

Every Piano is warranted for seven years. New and second-hand Pianos taken in exchange.

Pianos tuned and repaired. New and second-hand Pianos to rent, with privilege of purchase.

No. 401 Niagara Street, corner of Maryland.

We are now offering to the public, Pianos, which for beauty of design, elegance of finish, excellence of workmanship and quality of materials used, are unsurpassed by any in this country. By the use of our Patent Ivory Bridge and newly constructed Sounding Board, we get a tone that is more lasting, and vastly superior in its musical quality to any of our competitors, and we challenge the best judges and critics to deny the truth of this assertion.

All of our instruments have every known improvement, and no expense or pains are spared to make them, as we truthfully believe them to be, the best Piano ever offered in this market. Hundreds of persons in this vicinity, who have been using them for the past twelve years, are ready to bear testimony to their sterling qualities—a second-hand one of them being to-day of more intrinsic worth than a new one selected from among the numerous claimants for popular favor in these days of shoddy and deception.

Notwithstanding the high cost of manufacturing these thoroughly First Class Pianos, we are selling them at retail on the most accommodating terms, and at prices that Eastern makers charge wholesale for instruments which in many respects are anything but first class, their reputation being principally derived from the recommendation of unscrupulous Agents, who grow fat on the credulity of the too confiding and unwary purchasers.

Please give us a call and be convinced by examination of the construction of our Pianos that they are all that we claim for them.

THE HARDEST, TOUGHEST AND MOST DURABLE TYPE IN THE WORLD.

By the completion of our new and powerful machines, we are now enabled to force metal into type (heretofore impossible) that will exceed in durability any thing in the shape of Type now made in other places.

In case you need new Type for News or Book Work, we would advise you to give us your orders and you will be convinced, what we affirm, to be a fact.

If you will let us know when you intend to renew your paper with type, and give us the size and quantity of type you use, we will hold ourselves ready to meet your wants with promptness.

You will find also at this Foundry all other articles necessary for the Printing Business.

We are agents for all the Printing Press Makers in the country.

Type from other foundries furnished.

**ELECTROTYPING.**

Printers will find it to their advantage to send their forms to be Electrotyped when large numbers are to be printed from them, thereby saving their type from wear. Also Books and Pamphlets Electrotyped as low as Stereotyping. Cuts, Borders and in fact anything that needs Electrotyping.

These offices comprehend the *Practice of Patent Law with the SOLICITING OF PATENTS* in the United States and Foreign Countries.

The LAW DEPARTMENT is conducted by EDMUND BURKE, formerly Commissioner of Patents.

The SOLICITING DEPARTMENT is conducted by FRASER & DRAKE, who have been more than twenty years engaged in the business.

Special attention is given to Interference, Infringement, and other Patent Causes, and to the preparation of opinions on the validity of Patents.

Also, to RE-ISSUING Defective Patents, obtaining the EXTENSION of Patents granted previous to March 2, 1861, and to the prosecution of REJECTED APPLICATIONS.

In doubtful and REJECTED CASES the fees will be made to depend on success if preferred.

One member of the firm is almost constantly in Washington, to attend personally to Cases before the Patent Office.

EDMUND BURKE,  
*Formerly Commissioner of Patents.*

J. FRASER,  
J. R. DRAKE, *Solicitors of Patents.*

## GOLD'S PATENT STEAM FURNACE

For which we are Agents, and which we unhesitatingly pronounce the best Heating and Ventilating Apparatus for Dwellings, Stores, Churches and Public Buildings in this country. The following is one of the many Testimonials in our possession :

BUFFALO, March 30, 1870.

Messrs. IRLBACKER & DAVIS,

*Gentlemen:*—I have the "Union Steam Heater," for which you are Agents, in my house, and have used it for two years. I regard it as the most perfect heating apparatus with which I am acquainted. The atmosphere of my house is uniform, soft and pleasant, and it is always comfortable as summer. I regard it as an economical apparatus, as far as its consumption of fuel is concerned, and by its use we avoid the sudden and violent changes that are unavoidable in using any Hot Air Furnace that I have ever used or seen.

# FRANK & CO.'S PONEY PLANER AND MATCHER

This Machine is designed to meet the wants of a large number of those who are in want of a Planer and Matcher, who either have not the means or sufficient amount of planing to afford a large and expensive machine. It is small, strong, compact and durable, occupying a space about 3½x5 feet. It has four 4½ inch feed rollers, connected by expansion gears. Both the upper feed rollers and cutter head are ruled at the same time by the use of a single crank. The under cutter head is raised and lowered by a screw, to give a light or heavy cut as may be desired. The pressure bar over the lower cutter head is raised by the use of a screw at each end, both being operated at the same time by level gears connecting with a horizontal shaft and crank. It will plane both sides, tongue and groove or joint both sides at the same time from 2¼ to 19 inches wide, and do as much work as many machines costing double the price.

Prices.—To plane and match 12 inch wide, \$375.00; to plane both sides and match 12 inch wide, \$450.00; extra cutters per pair, \$4.00.

NOTICE TO THE TRADE  
CONCERNING  
**JOHNSON'S**  
**BUFF TINTED COPYING PAPER**  
CHEAPEST AND BEST PAPER.

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled Jobbers and dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using

**JOHNSON'S BUFF TINTED COPYING PAPER**

and have gone so far as to state that in some instances our paper has been represented to be another article, made by other parties.

We have bestowed years of labor in bringing our paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying paper or Books made by us, we shall protect you against any loss by reason of prosecution or infringement upon the pretended rights of any manufacturer.

Every one of our copying Books has pasted on the front inside cover a label, reading "JOHNSON'S BUFF TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our Paper, with directions for copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "Johnson's Buff Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff Tinted Copying Paper is done up in packages of two Reams each, with label on the outside of each package as follows: "Johnson's Buff Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.

## COTTRELL & BABCOCK'S IMPROVED AIR SPRING PRESSES.

We have recently substituted an **Improved Air Spring**, for the Wire Spring heretofore in use on our Presses, which enables them to be run at a higher rate of speed, with entire safety and with less noise and jar, and, consequently, with less wear to the machine. Patents were granted on May 2, October 17, and December 12, 1871, to C. B. COTTRELL, for the following improvements on the Air Spring:

**FIRST.**—A **Self-Adjusting or Yielding Plunger**, so constructed as to obviate all difficulty from paper, tapes, or other matter falling on the Plunger when the Press is in motion, which has been so productive of damage and delay with the Air Spring as previously made.

**SECOND.**—We have placed an **Automatic Valve in the Plunger**, which prevents all strain or drag on the return motion of the Bed, caused by vacuum in the Air Chamber, thereby saving power.

**THIRD.**—We have applied a **Governor**, to regulate the amount of Spring according to the speed, which enables the Press to be started at any point without helping it over the centers by hand, a convenience which all pressmen will appreciate.

# BUFFALO CITY DIRECTORY

FOR THE YEAR 1872.

## ABBREVIATIONS.

In the pages following, *A.* stands for house; *b.* for boards; *w.* for with; *ave.* for avenue; *cor.* for corner; *opp.* for opposite; *wid.* for widow; *lab.* for laborer; *ab.* for above; *bel.* for below; *bet.* for between; *n.* for near; *r.* for rear; *carp.* for carpenter; *N. S. E. W.* for north, south, east and west; *N. Div.* for North Division; *S. Div.* for South Division; *Exc.* for Exchange; *Wash.* for Washington; *Com'l* for Commercial; and the abbreviations of the States for streets of similar names. The word *street* is implied.

It will be noticed that the names and residences of all members of a firm are in a smaller type, directly under the name of the firm. This, it will be understood, does not interfere with the regular insertion of the same names in their alphabetical order.

**ALLEN'S ROTARY JOB PRESS,**  
MANUFACTURED BY THE  
**Allen Manufacturing Company**

**Price \$800. Counter Shaft, Hangers and Cone Pulley Included.**

**PRINTS A FORM 7-14, AND WILL CARRY A SHEET 14-17 INCHES.**

The capacity of this press is from 2,000 to 3,000 impressions per hour; really it is only limited by the ability of the feeder. The success of the Allen Manufacturing Company with their Automatic Envelope Printing Press, for the past five years, justifies them in the belief that their new Rotary Job Press will become a general favorite, on account of the quantity and quality of its work, and its superior conveniences for the printer. In strength and perfection of its mechanism it will compare favorably with the best press in the market.

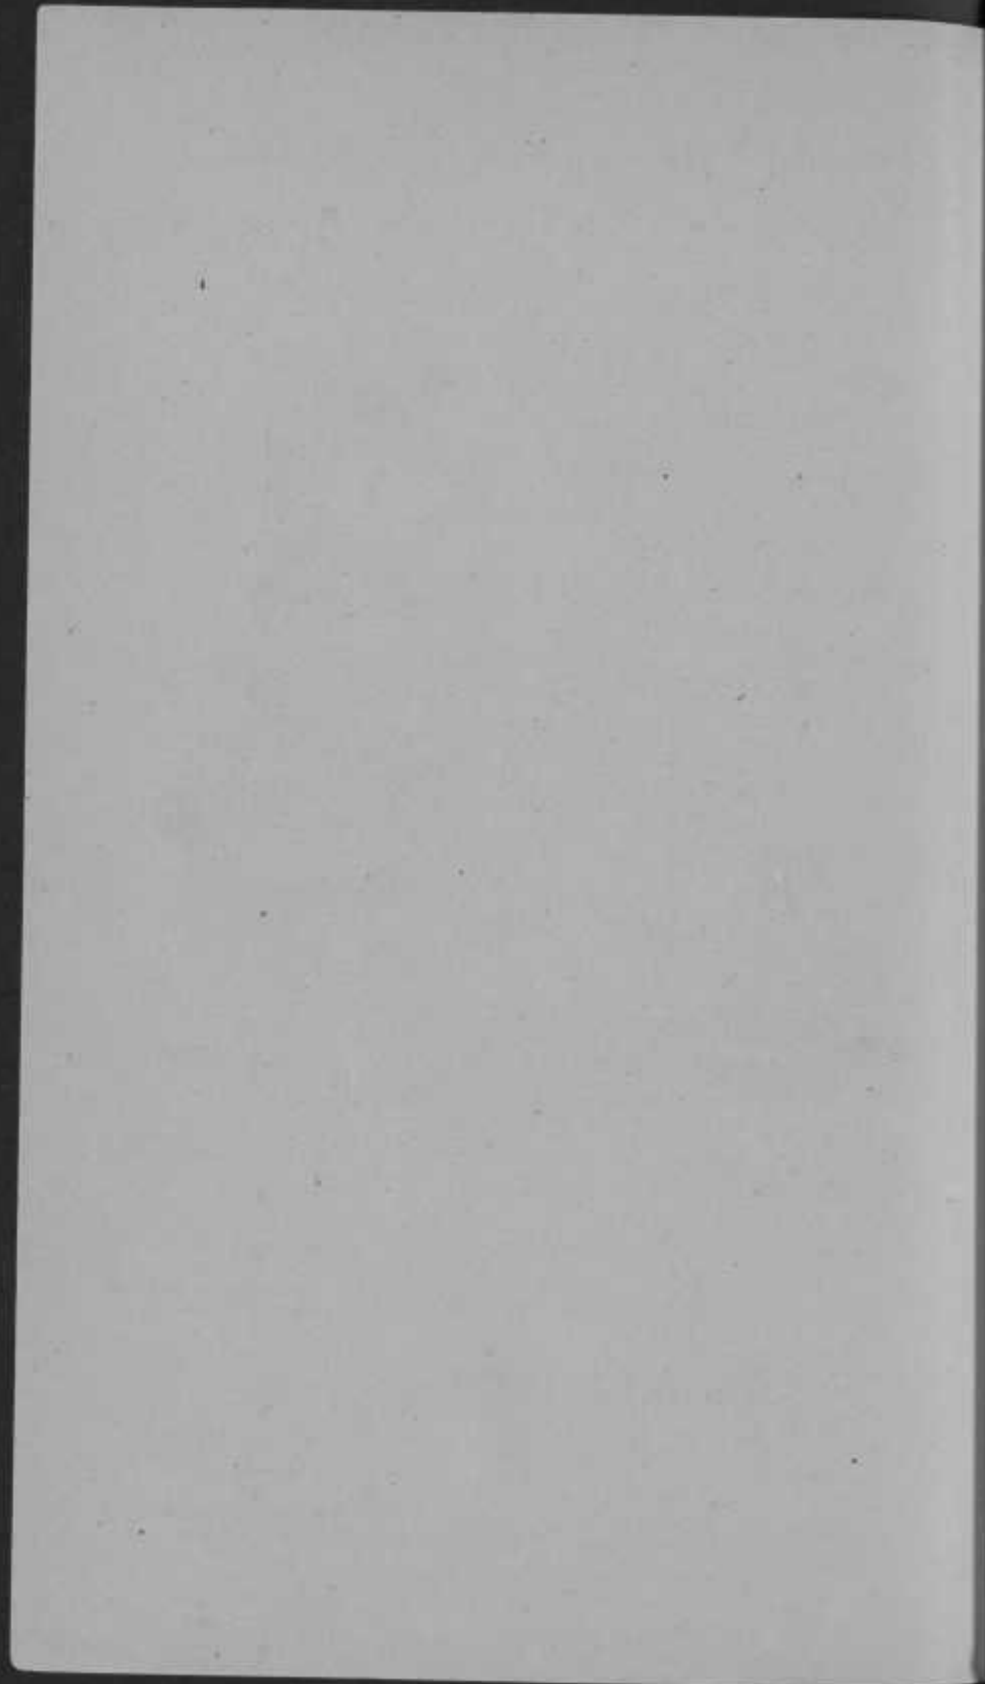

GEORGE F. NEESEY & Co., Printers, New York City, write: "Your Fast Rotary is a desirable Press for small work. We consider it nearly, if not quite equal to three Gordon or other similar Presses."

D. & C. H. BLAKELY, Proprietors Chicago Evening Post, write: "We have had one of Allen's Rotary Job Printing Presses in operation in our office for several months and are more than satisfied with its operation."

Messrs. WARREN, JOHNSON & Co., Proprietors of the Great Central Shaw Printing House, Buffalo, N. Y., speak of the Allen Rotary Job Press as follows: "After two months severe test of your press averaging from 2,000 to 3,000 impressions per hour, we do not hesitate in pronouncing it one of the very best presses now in market."

American Institute, New York, 1871, First Premium Certificate,  
with Report of Judges, as follows:

"THESE PENCILS ARE WELL GRADED,"

AND

"EQUAL TO ANY IMPORTED PENCILS."

---

NEW YORK, February 11, 1871.

TO THE AMERICAN LEAD PENCIL CO.:

I have tried your pencils, and find that they are in every respect excellent and equal to the celebrated Faber's.

Yours truly,

CONSTANTIN HERTZBERG,

*Professor in the Art Department of the Brooklyn Polytechnic Institute, and Cooper Institute.*

---

NEW YORK, December 26, 1871.

AMERICAN LEAD PENCIL CO.:

Gents:—I have used your pencils in my office for six months past, having an average of four assistants during that time, and it is but just to state that we all join in testifying to their good quality, and that we have cleaner drawings and improved work. They were especially our favorites on account of the fineness of the points, their being always reliable on this account, and also on account of the even quality of lead. I can fully certify, that I have used only one half the quantity I have of A. W. Faber's, which was always a standard with me, and I confess my reluctance to using yours at first, but have found them in my experience to be the best for our use.

Yours respectfully,

JAS. H. CARPENTER,

*Architect, 136 Chambers St., New York.*

## Why its Unparalleled Success? Because,

### 1st.

It is the only truly National Company in the World. Purely Mutual. No Stockholders.

### 2d.

The only Company which provides by its Charter for Department Boards of Trustees, and the only Company in whose Constitution this important feature is organic and perpetual.

### 3d.

It is purely an Association of Department Constituencies, in which each Department has a direct voice in its general management.

### 4th.

It is a Home Company in each locality where organized with the strength of a National one; and it guarantees the investment of the reinsurance fund in the locality where the premiums are collected.

### 5th.

The only Company which by its Charter secures to retiring Policy holders a fixed surrender value, for each dollar of premiums paid in.

### RESULTS:

The only Company in the World that ever sold \$45,655,000 of insurance in two years and six months!

## JEROME PIERCE & CO.

MANUFACTURERS OF

# SHINGLE, HEADING, STAVE AND SAW MILL MACHINERY,

Patented April 17th, 1866.

## OUR AUTOMATIC TWO-BLOCK MILL.

This is a machine which we unhesitatingly present to the public as the **BEST TWO BLOCK MILL** in use. It is constructed entirely of iron and steel, and in a simple and durable manner. The advantages of this machine are: the **LARGE QUANTITY** of work turned out, its **QUALITY**, and the **SAVING OF LABOR**—one man tending it easily. The machine is so constructed that when one block is being sawed the other is receding. **ELEVATED ABOVE THE SAW**, which is done by the tracks upon which the carriage runs being raised and lowered by a simple arrangement not liable to get out of order.

The advantages are, that the saw will run **LONGER WITHOUT REFLILING**, as the saw comes in contact with the block only when cutting. The block not coming in contact when receding, the upper side of the saw is dulled no faster than the lower, a desideratum not accomplished in any other machine. Any one will readily see that the saw will run much longer before refilling, and also avoid making clipped shingles as in other machines, where one side of the saw becomes duller than the other. It has the advantage of other two block mills in using 40 inch saws instead of 36 and the carriage consequently requiring less distance to travel to cut the same width shingle.

It has the self-acting tilting table operated by the movement of the carriage, and by raising the paul, you make as many shingles as you please one way, if desired.

Awarded the Silver Medal at the Ohio State Fair, Toledo, 1868. Awarded the Silver Medal at the Michigan State Fair, Detroit, 1868. Awarded the Highest Premium at International Industrial Exhibition, Buffalo, N. Y., 1869 and 1871.

We also manufacture Automatic One Block Shingle Machines, Hand Feed Single Block Shingle Machines, Wheel Jointers, Saw Jointers, Poling Machines, Drag Saws, Wood Splitters, Wood Saw Tables, and Saw Mill Machinery, with the Latest Improvements.

LONDON 1862.

HAVE BEEN AWARDED THE

## First of the Grand Gold Medals of Honor,

UNIVERSAL EXPOSITION, PARIS, 1867.

**OFFICIAL CERTIFICATE** of the President and Members of the International Jury on Musical Instruments, (Class X.)

I certify that the **FIRST GOLD MEDAL** for American Pianos has been unanimously awarded to **Messrs. STEINWAY**, by the Jury of the International Exposition, First on the List in Class X.

HELMUTH, President of the International Jury,  
First Official Reporter,

GEORGE KAETSKEL,  
F. A. GEVAERT,  
AMÉDÉE THOMAS,  
H. B. HANSEN,  
J. SCHIEDMAYER,

Members  
of the  
International Jury.

This unanimous decision of the International Jury, arrived by the Imperial Commission, in classifying the Medal First in order of Merit over all other American Exhibitors, and over more than 400 Pianos entered by nearly all the celebrated manufacturers of Europe, being the *first Verdict of the only Tribunal concerning the rank of the Awards at the Exposition, since*

### THE STEINWAY PIANOS AT THE HEAD OF ALL OTHERS.

Extract from the Official Report of the International Jury on Musical Instruments, published by the Imperial Commission in August, 1867, comparing the relative merits of the pianos exhibited:

"The Pianos of Messrs. Steinway & Sons are endowed with the splendid sonority, and the pleasing brightness and volume of tone hitherto unknown, which fills the greatest space. Brilliant in the treble, singular in the middle, and formidable in the bass; this sonority acts with irresistible power on the organs of hearing. In regard to expression, delicate shading, variety of accentuation, the instruments of Messrs. Steinway have over those of their competitors an advantage which cannot be contested. The pianist feels under his hands an action prompt and easy, which permits him at will to be powerful or light, vehement and graceful. These pianos are at the same time the instrument of the virtuoso, who wishes to astonish by the extent of his execution, and of the artist who applies his talent to the music of thought and sentiment imparted to us by the illustrious masters; in one word, they are at the same time the pianos for the Concert Room and the Parlor, possessing an exceptional sonority."

**MESSRS. STEINWAY & SONS' MAMMOTH MANUFACTORY** is now conceded to be not only the most perfectly arranged, but at the same time the most extensive establishment of its kind in the world, the official Revenue Returns published for the years 1866-67 having revealed the startling fact that the number of pianos manufactured by Messrs. Steinway (sixty instruments per week) and the amount of their sales are more than double those of the next largest manufacturer in America, and exceed those of the twelve largest piano makers of New York combined.

**THE STEINWAY PIANOS** are preferred to all others by the most celebrated pianists of the world, and used by all the principal Concert Companies whenever attainable.

**STEINWAY & SONS** are the only American firm whose Pianos have a "world wide" reputation, being exported in large and constantly increasing numbers to all improved all parts of the civilized world. Steinway's Pianos are sought to be copied by nearly all American and European piano makers, many of the latter announcing through the public papers that their pianos are constructed on the "Steinway" system.

**EVERY PIANOFORTE WARRANTED FOR FIVE YEARS.**

Prices as low as the exclusive use of the best exclusive material and most thorough workmanship will permit.

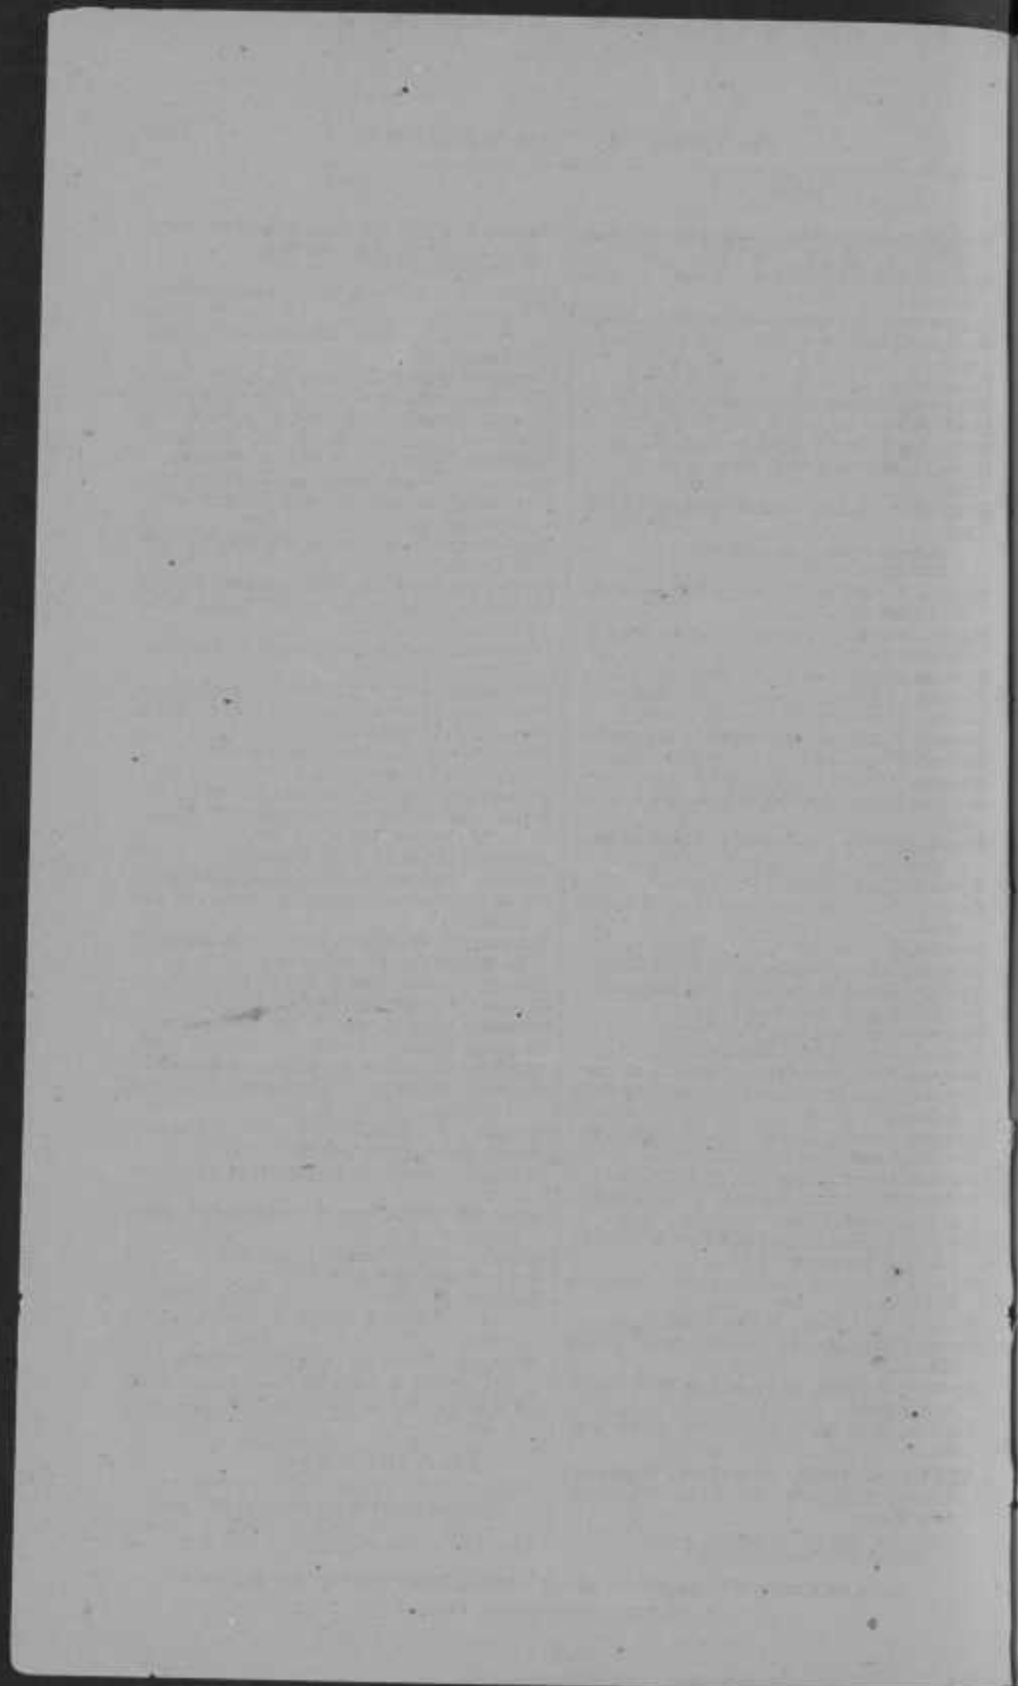

Illustrated Catalogues, fully describing and showing the external appearance of each style of Grand, Square and Upright Pianos manufactured by Steinway & Sons, mailed free on application to

In the matter of the application of George R. Yaw for an order to authorize him to assume the name of George Russell Potter.

On reading and filing the petition of George R. Yaw, duly verified by his affidavit and the affidavit of his mother, Charlotte B. Yaw, showing that the father of said George R. Yaw in his youth assumed the name of Ambrose Potter, and was for many years known and called only by that name, and was married to the said Charlotte B. by that name; that said George R. Yaw was, when an infant, named Russell Potter, and for several years was known by that name only; that he is desirous of resuming the name of Potter, and his said mother desires that he should resume that name; and praying that this Court will make an order authorizing him, the said petitioner, to assume the name of George Russell Potter, and this Court now here being satisfied by said petition so verified, and by said affidavit, that there is no reasonable objection that said petitioner should assume the name of George Russell Potter, and on motion of Ganson & Smith, attorneys for said petitioner, it is ordered that said petitioner be and he is hereby authorized to assume the name of George Russell Potter from and after the twentieth day of August, A. D. 1872.

**ASSAULTING AN OFFICER.**—Yesterday fore-  
noon James Griffen was arraigned at the  
Police Court charged with having assaulted  
officer Charles Marselow, while the latter  
was performing his duty. Justice Nash hav-  
ing heard the conclusive evidence, sentenced  
him to the Erie County Work-house for four  
months at hard labor.

18. The first of these is the  
fact that the number of  
cases of the disease is  
very small. It is not  
commonly seen in the  
United States, and is  
rarely fatal. It is  
usually confined to the  
tropics, and is  
most common in the  
West Indies and South  
America. It is also  
found in the East Indies  
and Africa. It is  
usually caused by the  
bite of a mosquito, and  
is often accompanied by  
fever and chills. It is  
usually cured by the use  
of quinine.
